24 years old

## Front-end engineer

### Summary

**4+ years of commercial experience | 15+ successfully completed projects**  
I turn ideas into fast, stable, and user-friendly web apps and websites using modern technologies (TypeScript, Vue, Nuxt, Pinia, SCSS). From first concept to post-release support. "Joining forces to deliver the best"

### Hard skills

• HTML (BEM) | • CSS (SCSS, Flexbox, Grid layout) | • JavaScript (TypeScript) • Vue (Pinia, Composition/Options API, Vue Router, Vuetify, Nuxt) | • Firebase | • NodeJS, (Enviroment, Express) | • Vite, Webpack, Gulp | • Rest API (APIs Integration) | • Stripe/Google/Meta/Paddle APIs | • SOLID/ DRY/KISS desing | • MVC pattern | • JWT tokens | • PostgreSQL (Prisma ORM) | • Docker

### Experience

- Jul 2023 – Aug 2024  
Front-end developer  
Upwork (Self-employed)  
Developed websites and automation solutions, including Facebook API integration into an internal admin system with front-end interface for data display and management.
- Jul 2023 – Aug 2024  
Front-end developer  
Upwork (Self-employed)  
Worked on diverse projects, including AI tools for WhatsApp (audio-to-text, summaries), AI chatbots (AWS Lex) for recruiting, Gmail customization, and browser plugins to improve user experience.
- Sep 2022 – Jul 2023  
Front-end developer  
Chromane  
Built browser extensions for startups worldwide. Helped shape client ideas and delivered full solutions – from cold outreach automation to social media workflows (Facebook, Instagram, Twitter).
- Dec 2021 – Oct 2022  
Front-end developer  
ADA Group  
Developed websites for Facebook ad campaigns, implemented UI/UX solutions, and automated ad operations (custom CRM, campaign tools).
- Sep 2021 – Sep 2022  
IT Mentor  
IT Step Academy  
Taught web technologies to students from various backgrounds. Gained strong communication skills and learned how to explain technical concepts clearly and effectively.

### Soft skills

Comfortable working both independently and as part of a team. I can solve tasks without supervision and also have experience collaborating with developers, designers, QA, analysts, and PMs. I communicate clearly, share ideas effectively, and work towards a common goal to deliver the best results for the client.

### Recommendations

Roman is a very talented web developer. We worked together for almost a year and during that time he helped us and our clients create robust and easy to use interfaces with Vue.js and Firebase. He is a great team player and I recommend him for your web project.
